

Family Day

Participant Ratings YTD 2018

Participants in Tully Hill's Family Day program complete surveys that score* their satisfaction with each program category covered during the day.

The following details those categories and the program's year-to-date 2018 average scores for each:

Program Category	Overall Average Score	% Patient Satisfaction
Helpfulness of ability to share w/other family members	4.80	96%
Usefulness of information in morning lecture	4.80	96%
Medical lecture	4.72	94%
Group	4.72	94%
After lunch group/common behaviors activity	4.77	95%
Group sharing / closing activity	4.70	94%
Today's program overall	4.87	97%

**0 lowest score, 5 highest – survey scores based on 115 surveys completed of 140 program participants, 82% response rate*

Family participation in patient treatment is a huge support to patients and, like family support after discharge, a very important factor in a patient's treatment and post-discharge success. Join us in helping your family member in treatment get clean and sober, and remain abstinent after discharge.

For details about our Family Day program, visit www.tullyhill.com, click on the TREATMENT PROGRAMS tab on the main menu and choose the Family Day drop-down option.

Or call 315-696-6114, and ask for x172 or 176 for details and to register to participate.
